

## PRESS RELEASE

### on the Israeli Aggression Against Gaza

The Trade Union Confederation of Productive Forces (COSYFOP) expresses profound concern and deep sorrow over the tragic events unfolding in the occupied Palestinian territories, particularly in the Gaza Strip. A brutal and unprecedented Israeli assault has already resulted in the deaths of over 413 Palestinians, the majority of whom are women and children. More than 1,000 individuals have been injured, including over 500 with critical injuries. Among the victims are infants and children under the age of eight, killed in relentless Israeli bombardments that are openly supported and endorsed by the United States.

The Trade Union Confederation of Productive Forces (COSYFOP) strongly condemns this barbaric massacre perpetrated against a defenseless Palestinian population. We also denounce the shameful role of the United States, which, since the Trump administration, has become a source of global insecurity and instability rather than a champion of peace and international justice.

We call on the Algerian government, as a representative of the Arab, Berber, and Muslim peoples, to take decisive and unwavering action against these crimes against humanity. It must utilize Algerian diplomacy on the international stage to expose Israeli atrocities and advocate for the Palestinian cause.

We further urge the Algerian people, who have always stood as defenders of justice, to rise against this humanitarian tragedy, voice their outrage, and exert all possible pressure on the U.S. Embassy in Algeria. We emphasize that the Palestinian cause is a shared responsibility for all Arabs and Muslims.

We call on the international community to fulfill its moral and legal obligations by putting an end to this aggression, which blatantly violates international laws and norms. We demand a swift, transparent, and impartial investigation into these crimes and insist that all those involved or complicit be held accountable.

In conclusion, the Confederation of Productive Forces reaffirms its steadfast support for the Palestinian people in their struggle for freedom and independence. We will continue to advocate tirelessly at all levels for this just cause until the Palestinian people achieve their freedom, independence, and the establishment of a sovereign state with Jerusalem as its capital.
